

Hi Pete,

just wanted to take some time out of my day to say thank you. Not only for the opportunity you have given me, but for providing a positive environment to work in and for putting together such a great team here at McNeil's. I have learned so much throughout my apprenticeship and it would have not been possible without this opportunity. I'd also like to recognize Jake for everything he has done for myself and the rest of the team. I could not imagine having people asking me questions all day, while I'm trying to get something done. Jake does that all day and more with no complaints! Not only did he design a great portion of this program, but he gives so much of his time in and outside of work for the better of the shop. He really does care for McNeil's and its future. Not to mention he is probably one of the smartest people I have met. He is amazing at what he does and I can honestly say I wouldn't have gotten this far without him. I am grateful to be a part of this team and excited for my future here at McNeil's.

Thanks for your time,

Jesus Lizarraga
